Hakka	• Basic

PERSONAL PROFILE

Software Systems Development graduate with hands-on experience in enterprise software development across the software development lifecycle. Skilled in requirement analysis, full-stack development, software testing, and technical documentation, with a strong interest in backend development and IT project coordination.

WORK EXPERIENCE

IT Intern – Software Development

Current Tech Industries Sdn. Bhd. | **Jan 2026 – Jul 2026**

- Collaborated with the Product Manager and mentor to analyse business requirements and deliver technical solutions for an enterprise CRM system.
- Designed ERDs and relational database schemas, and developed full-stack functionalities including backend business logic, RESTful APIs, database operations, and responsive user interfaces.
- Conducted software testing and prepared technical documentation, test cases, and testing documentation to support system quality and future enhancements.

IT Intern – Software Development

EHUB IT SOLUTIONS SDN BHD | **Nov 2023 – Jan 2024**

- Maintained and enhanced POS system features for retail and F&B clients to ensure stable system performance.
- Enhanced web and mobile interfaces while implementing automated tax calculation features and backend analytics support.

TECHNICAL SKILLS

Languages

Java, Python, PHP, JavaScript, HTML, CSS, C++, C language

Frameworks & Technologies

Laravel, Vue.js, React.js, Inertia.js, Ant Design, Flutter (Dart), RESTful API

Database

MySQL, Supabase, Firebase

Development Tools

Git, Postman, Visual Studio Code, Android Studio, Figma

Software Development

Requirement Analysis, Database Design, ERD Design, Software Testing, SDLC

PROJECT EXPERIENCE

Enterprise Customer Relationship Management (CRM) System

(Laravel, Vue.js, MySQL, RESTful API)

- Developed an enterprise CRM system consisting of multiple integrated business modules, including product, order, commission, settlement, dashboard, and sales management.
- Designed ERDs and relational database schemas, and implemented full-stack features from requirement analysis through testing and technical documentation.

Food Recipe & Cooking Assistant Application (FYP)

(Flutter • Supabase • Flask • YOLO • Spoonacular API)

- Built a cross-platform mobile application integrating AI-powered ingredient recognition, personalized recipe recommendation, meal planning, and grocery management.
 - Integrated Supabase authentication, real-time database services, and RESTful APIs to deliver personalized cooking experiences.
